EDUCATION

The University of Texas at Austin, Austin, TX

May 2028

Bachelor of Science in Computer Science

Relevant Coursework: Data Structures, Discrete Mathematics, Computer Architecture

SKILLS

Programming Languages: Java (Fluent), JavaScript (Fluent), Python (Fluent), C (Intermediate), C# (Intermediate)

Technical: Version Control (Git), Figma UI

Languages: Fluent Russian

EXPERIENCE

JAPANLAB/EPOCH HISTORY GAMES INITIATIVE INTERNSHIP, Austin, TX

Oct 2025 - May 2026

Gameplay Programmer and UI/UX Designer

- Lead end-to-end development of *Quest for Quinine*, a historically grounded educational video game, creating the game's core mechanics and responsive UI components using Unity and C#.
- Bridged the gap between design and development by innovating a custom UI framework that translated complex historical data into intuitive, interactive player interfaces.
- Collaborated cross-functionally with engineers, designers, and researchers to integrate front-end systems with backend logic, contributing to a semester-long project to produce a classroom-ready game.

SEO TECH DEVELOPER FIRST YEAR ACADEMY, Remote

Feb 2026 - June 2026

Academy Participant

- Developed foundational software engineering and programming skills in Python, collaborating with other developers to build a fully functioning Python game in PyGame as a final project.
- Proactively engaged in specialized mentorship geared toward preparing for competitive internships in the tech industry.

UNIVERSITY OF TEXAS AT AUSTIN, Austin, TX

Jan 2026 - Present

Resident Assistant

- Provided peer support and guidance to approximately 40 residents on academic and personal matters.
- Collaborated with a team of RAs to plan and execute residential programming for 800+ residents.

PROJECTS

QUEST FOR QUININE | C#, Unity

Oct 2025 - May 2026

- Implemented a custom branching dialogue system in C#, handling player decisions and branching prompts.
- Designed and implemented scalable UI components, translating complex data into intuitive user interfaces with a focus on performance and accessibility.
- Developed core gameplay mechanics and refined game feel through iterative prototyping, implementing custom animations and haptic feedback for key player interactions.

LEADERSHIP & COMMUNITY INVOLVEMENT

UNIVERSITY OF TEXAS AT AUSTIN, RESIDENCE HALL COUNCIL (RHC), Austin, TX

Aug 2025 - Dec 2025

Vice President

- Collaborated with a team of officers to plan and execute large-scale residential programming for 800+ residents.
- Advocated for residents by communicating their needs to University officials.
- Represented 800+ residents in weekly University Residence Hall Association (URHA) meetings.
